

Hi, my name is Chan Lam Kwang. I am a sub-contractor for electrical works. As a Singaporean, I do love to try my luck on the game of 4-D, so as to cash in extra income if I'm lucky enough. Maybe due to some unforeseen circumstances, I have not strike lottery for a long long time if I could remember.

Lately, my friend introduced Master Ricky Chua, a famous Geomancer in Singapore to me. I then went to see Master Chua and consulted him on my house Feng Shui. Acting on his advice about my interior design of my house, I then re-arranged the furniture, re-shifted the bedroom beds, re-painted the whole house and placed a fish tank at my wealth spot according to what Master Chua had advised me to do. Just last week, I strike first prize in 4-D by betting on my hand phone number. I was so delighted, I would never have though I could get some winnings in 4-D and would never have though the number I bought came out the first prize. I was so happy that I called Master Chua immediately and thank him for helping me. This shows that with proper arrangements of the house, the energy that evolves will benefits the house owner and the family members in a way or another. Before I end, I need to make myself clear that I am not promoting gambling and it does not mean that Master Chua can help anyone to get rich. Its' all depends on your life and luck. Master Chua just merely pushes you from behind and enhances the effects.

I would have no hesitation to recommend Master Ricky Chua to anyone of you if you want your life to be analyzed or the Feng Shui of your house to be seen correctly. Last but not least, thank you so much Master Ricky Chua. Your help and assistance is greatly appreciated.

Yours Sincerely,

Chan Lam Kwang (弟子曾法勇)
