

My name is Frankie Loh, a strong believer in 'fengshui'. When I moved into a new home, my first priority was to set things right so that the whole family can be blessed with good luck and fortune in the years ahead hence I consulted Master Ricky Chua and seek his advice on 'fengshui'. Many years have passed and looking back on the numerous blessings, it is with thankful heart for what Master Ricky Chua has done for my family. Things have worked out well thus so far in my home. My only daughter is now studying in University and even possesses a driving license.

Master Ricky Chua even went to Hong Kong to pursue his quest to attain greater knowledge apart from just excelling in Taoism practices. There was a time when I was really down with a burdened heart that I approached him for advice regarding my bad luck and poor people relationship. He wrote me a talisman to wear so as to ward away my bad luck and to have amicable working relationships in my area of work. Let me just relate a few incidents where I strongly believe he is a man of benevolence.

1. There was an overdue maintenance payment with penalty charges for late payment that I took it along to HDB office to pay. Upon arriving the officer in charge told me that he will waive the penalty charges even though I did not request for the waiver.

2. It is with sadness that my relationship with my colleague has never been good. To my amazement, after I started wearing the talisman. My colleague started to wish me whenever we meet and hence my working environment has become a happier one in the office.

3. There is this notorious company that always gives problems and hard time whenever cheques are due for collection. It is well known in the industry of their methods of operations that baffles many people. Somehow whenever I go there to collect cheque payments, they never give me a hard time or resistance. It always turns out well and smooth for me with this company on cheque collection. This I believe is a miracle.

Therefore I am really grateful and thankful for all good tidings Master Ricky Chua has done for me and my family. I believed that meeting him many years ago is not by chance nor coincident. He is a gift to me where many blessings have.
