

As a financial planner, i believed that with hard work, nothing cannot be done. However, one step into Master Chua's shop proved me wrong and changes my life thereafter. It started off on 7 June 2000 when i went to the 4D kiosk to collect the result slip. I found that again, the numbers which i bought did not came out. I walked pass Master Chua's shop and was reading his menu of services which he provided. I then decided to try out his life analysis.

I approached Master Chua and revealed to him my date of birth. After some calculation, Master Chua started to tell me everything about my past. To my surprise, i have never met Master Chua but it seem that he was always beside me throughout my life to witness to the incidents happened to me. Master Chua then suggested to me to change my name for the time being. He then selected a new Chinese name for me and teach me how to go about changing it properly.

Before i continue, i need to make myself clear that i am not promoting gambling and it does not mean that Master Chua can help to get rich. It all depend on your life and luck and Master Chua merely push you from behind and enhance the effects. Believed it or not, ever since i followed the advices of Master Chua of using more of my lucky colour and changed my Chinese name, lady luck seem to be side by side with me all the time. One fine day, while i was sitting inside Master Chua's shop and chit chatting with him, the latter reminded me that life was not just enjoying and told me that it was time for me to settle down. I was surprised that Master Chua hit the nail from my heart.

In fact, my wife and i were trying for a baby for many years and we thought that maybe we were not fated to have children. Master Chua then suggested to take a look at my house. I arranged for me to visit my house and as what Master Chua predicted, the location and setting of my house spelled trouble in term of the human factors. Not only that my wife could not conceive, it caused a lot of health problem for her. Without second thought, i decide to move out of the house and after some viewing with Master Chua, we finally settled for one of the unit located at Serangoon area.

Master Chua then selected a special date for me to move into the new house. What so special of this date was that any person with proper knowledge of geomancy, will tell you that this is the worse date to do anything. However, Master Chua explained to me the purpose and reason of choosing this date and assured me that i will definitely got some winning from 4D within three months.

Well, as all of you can guess the ending of my testimonial, not only the winning from 4D was enough to cover back my renovation fee, my wife was also pregnant and 2005 marked the birth of my precious son.
