

Geomancy and Life Analysis, the two highly debatable subjects in this world, have been my interest since young. Throughout the last few years, I have consulted some specialists and enrolled myself in some geomancy courses and life analysis courses. Generally, the resulting analysis was that I need the element of Gold and Water, the 2 elements that I take as a guide in my home decoration, my daily clothing color etc. Still armed with so many doubts on those consultations I had, I went to Fu Lu Shou Complex to look for a Master. Again, the Master was very certain that the 2 elements that I need are Gold and Water. Definitely, I wasn't satisfied with the final consultation as it doesn't match with the happenings that I have been through the last few years.

In early 2008, I went around scouting for more consultations and Masters who could provide me with accurate and precise answers. Through Buddha blessing, I met with Master Ricky Chua of Chua Geomancy. Providing him with my Eight Character, he derived that my favorable elements are Wood and Fire. This is a BIG surprise to me, as what I had gathered through various books, courses and even various Masters, Master Chua analysis is of a total big contrast compared to what I had gathered all these years.

Amazingly, it only took him 10 minutes to come out with the conclusion. He then begins to analysis my life in detail i.e., the past, present and future and to my astonishment, he was able to see that I bought a house in 2007, which none of my friends knew. Master Ricky Chua is truly the ONE I'm looking after a long search. Since consulting Master Ricky Chua, he foresees that I would have some obstructions in my life and so he suggested perform some spiritual rituals on me through the help of Liu Ren Xian Shi.

The Primary objective is to clear away all obstacles, bad luck that is going to fall onto me and Secondary, to enhance my personal luck and wealth luck. Without second thought, I agree to have the ritual done on me. After the ceremony was done, Master Ricky Chua informed me that this particular month I will have some unexpected windfall. So I proceeded to do some investments in 4-D (Singapore Pools Lottery). True enough, the number that I bought came out on 18-05-2008, Sunday. 9900 brings me a fair bit of windfalls. Naturally, I was so happy that I called up Master Chua to thank him and definitely I'm going to perform some thanksgiving to the greatest, Liu Ren Xian Shi. All these happen less than a week after performing the Enhancement Rituals.

What a huge relief that I had met Master Ricky Chua. From now on, I do not have to go through unnecessary routes, spending hard earned money in search of Spiritual Enlightenment and of course in Geomancy and Life Analysis. All thanks to the great Liu Ren Xian Shi and Master Ricky Chua.
